Product Features

Uni-body construction

*Strength and beauty, easy to operate, easy to install
A wonderful new bathing experience!*

- Unique uni-body construction – one solid piece of composite fiberglass with gelcoat surface. The apron, tub deck and bowl are seamlessly molded together producing maximum structural rigidity.
- Due to this superior strength and resistance to movement it has a door opening impervious to twisting and warping – life time warranty on the door seal.
- Durable and user friendly door latch. All stainless and brass components, no plastic. Should any adjustment ever be required it is easily done at the lever. Patent pending.
- Jetted models feature the new Syllent Pump: the quietest whirlpool pump available. This is the only pump available with a heat recycling feature to help maintain water temperature and avoid the need for an in-line heater. This pump has no seals to leak, no bearings to wear out and has a 10 year factory warranty.
- Solid brass and stainless steel cable operated tub drain mechanism with a lever handle for easy operation - no plastic.
- Pre-installed plumbing with all connect lines for E-Z professional installation.

Life-time warranty
on door seal

New Syllent Pump,
no seals to leak.
